

# Displaced Family

Once upon a time, there was a happy family who lived in a cozy home.

But one day, something scary happened. Dark clouds filled the sky.

The family had to pack their bags quickly. They couldn't stay at their home anymore because of the scary things happening.

They started a long journey to find a safer place. They walked a lot and sometimes had to ride on crowded buses.

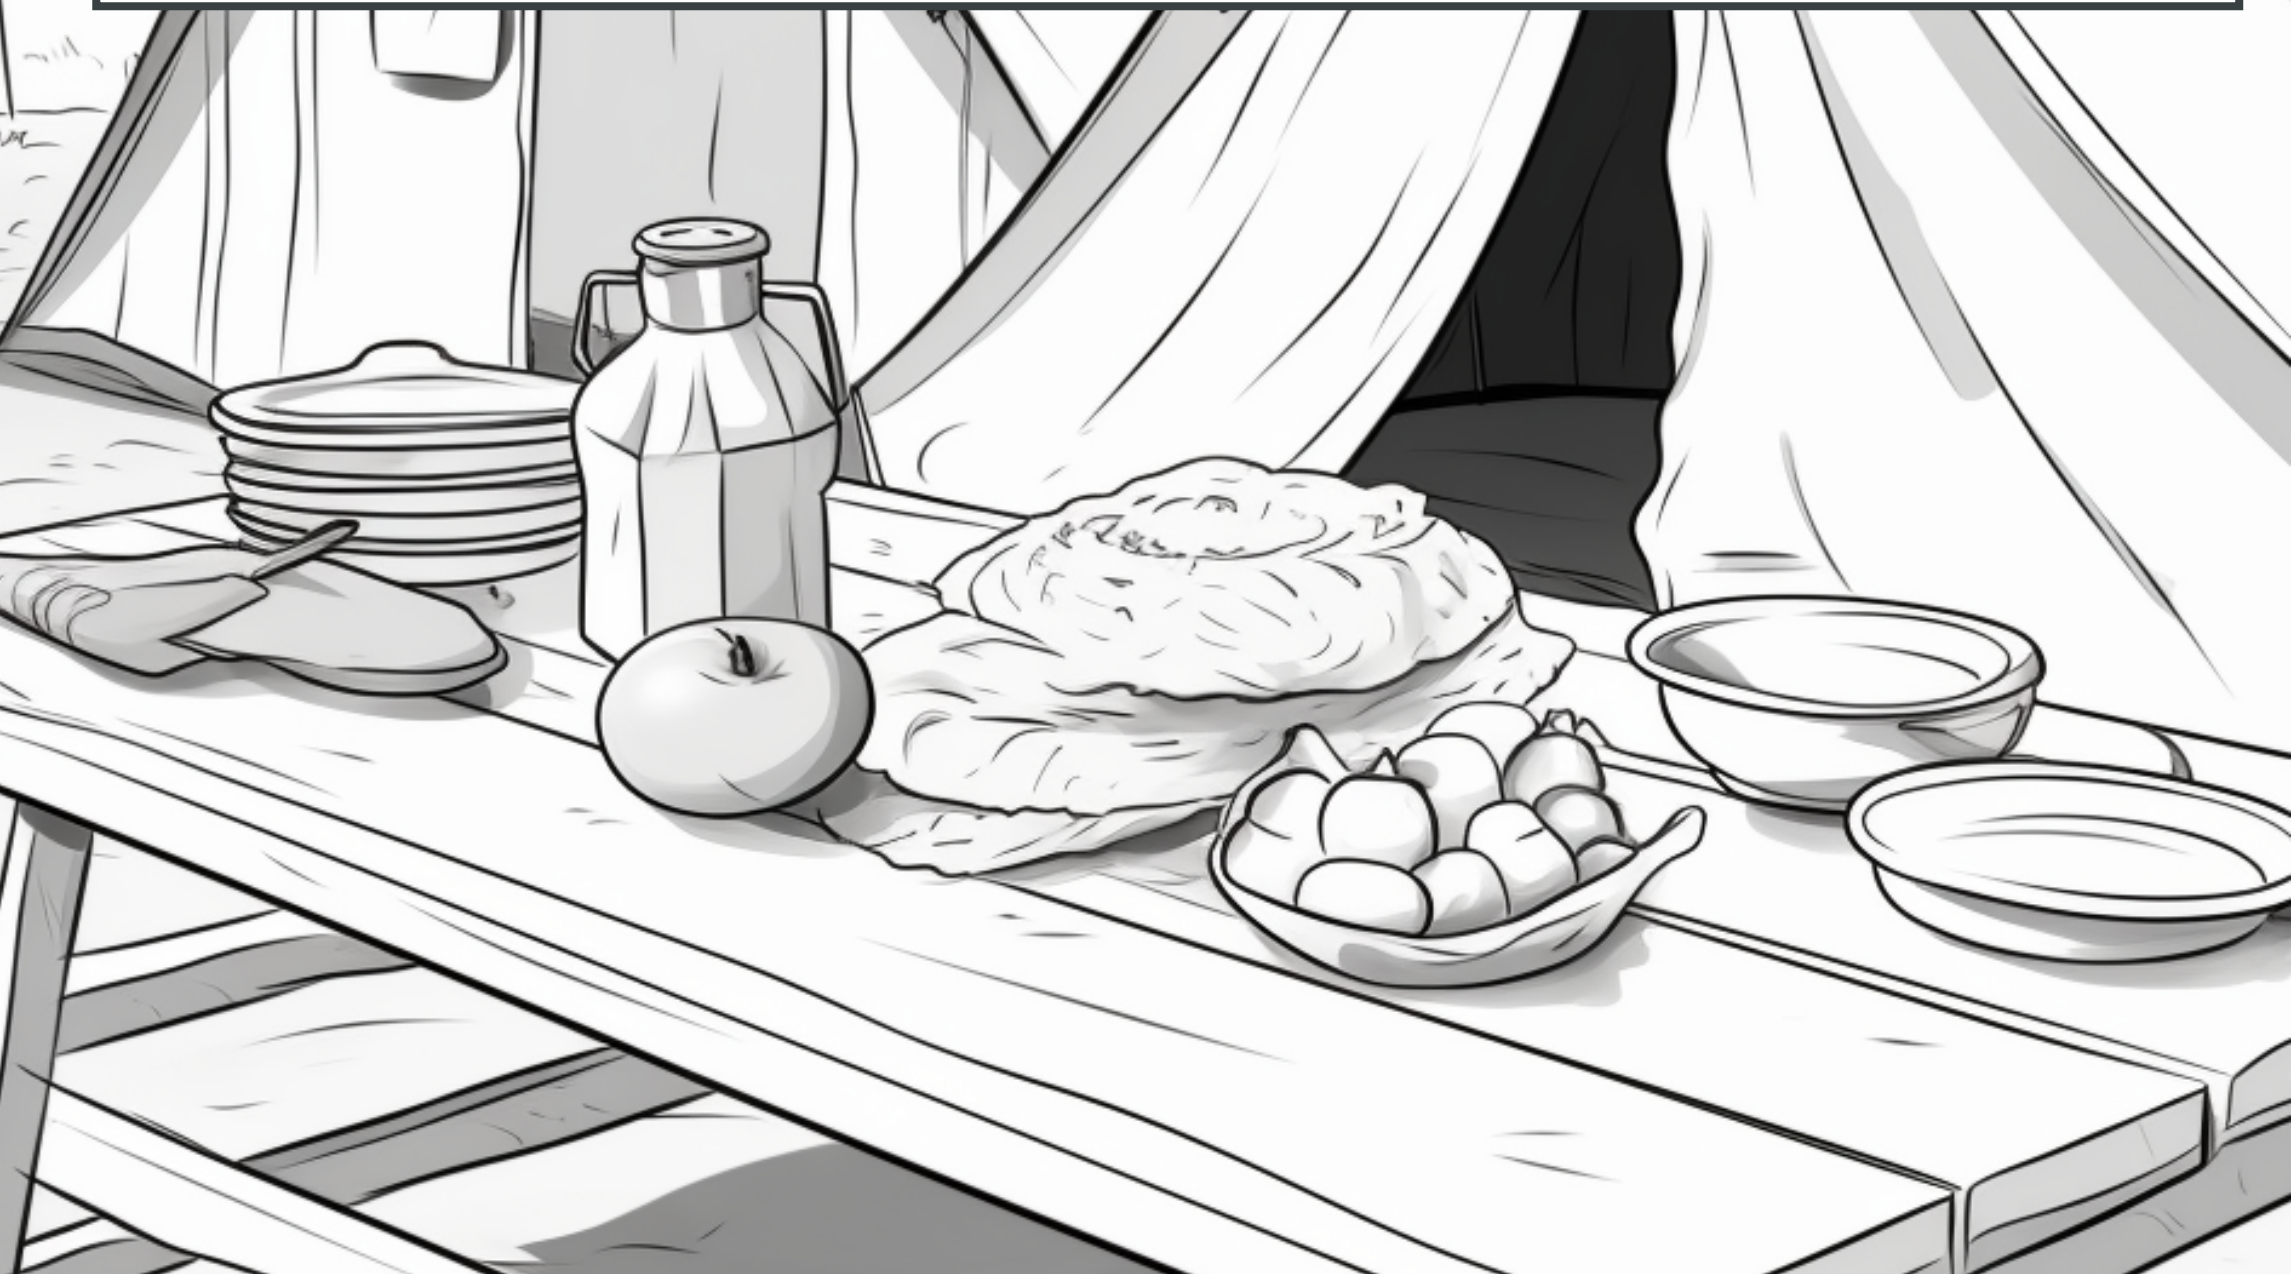

They arrived at a place and found many others who had to leave their homes.

In the camp, they met many other families and children. There, they made new friends and played games together.

Some kind people helped them. They explained things to them and gave them food, clothes, and a safe place to sleep.

There were even safe places where children could go to play and learn new things.

Even though they had to leave their home, the family knew that one day, they would find a new home and start a new adventure.
